

# More security with our new quick-release plates BALTE and BALPE

Did you ever have to do expensive repairs to your camera because a cable was torn off ?

This belongs to the past now. FOBA's new quick-release plates BALTE and BALPE protect your camera from such troubles.

BALTE und BALPE fit on all FOBA ball heads SUPERBALL<sup>®</sup> as well as on many quick-release plates of other manufacturers available on the market.

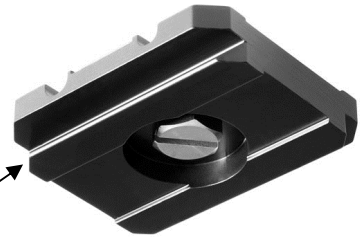

Thanks to the two grooves (of two different depths) cables can be securely fixed.

Thanks to the rubber coating, the camera is mounted skid-proof in any position.

Length: 57 mm  
Weight: 90 g  
**BALTE:** 1/4"-screw  
**BALPE:** 3/8"-screw

The quick-release plate can easily be slid into its quick-release unit thanks to its edge being taken off.

Efficient securing of the cables even when working hands-free.

All your cables (data cables, power or control signal cords) secured against tearing off.

Handy work thanks to the quick-release plate BALTE or BALPE.

Subject to technical changes

FOBA TRIPOD HEADS  
FOBA STATIVKÖPFE  
FOBA TÊTES DE TRÉPIEDS

Easy, quick and secure fixation: use a coin (which is always at hand).
